1. Please describe your current personal safety situation in your home region: Are you being monitored, persecuted or threatened due to your journalistic activities right now, or do you suspect that this will happen soon? If so, to what extent and by whom?

2. How important is digital security for your journalistic work and security? Please provide some practical examples.

3. Do you have previous knowledge of digital security issues? If so, which? Would you like to be educated on digital security issues? If so, why?

4. Are you willing to return to your home region after the scholarship program? Once you have completed the scholarship program would you be happy to share the knowledge you have acquired about digital security issues as a multiplier in your home region? If so, how? Do you already have teaching experience?
